Dear Sir or Madam,

Are you looking for a multidisciplinary creative person? Someone who has a proven track record of developing and nurturing unique and seductive visual identities?

My ability to use different creative tools means that I am completely autonomous and capable of rapidly and effectively adhering to whatever the deadline that is imposed on me.

Maintaining visual consistency is an essential part of my work. I enjoy discovering new horizons as these are where my original ideas emerge from. In tight collaboration with printers, I undertake to assure quality media and adapt my time to respect printing times.

In charge of the multimedia production content at CISEL technologies these last three years, I have been responsible for shooting and editing promotional videos. Notably for the firm Camille Bloch and their new system of managing production and supply chains in numerous IT/Video studios.

My experience today allows me from the outset of a client's basic idea, to open up a field of possibilities and bring to the fore solutions exceeding expectations in significant ways. Always being precise in my tasks, I am attentive to details whether in graphic design, animation, photography or video. Combining good photos with catchy phrases that give them meaning is an exercise I appreciate and that stimulates my imagination.

I would be delighted to be able to meet you in order to present to you my body of creative projects. You may discover my style and productions at WWW.MZART.CH

I thank you for having taken the time to read through my application and I send you my best wishes.

Mathias Zwygart
